### Western Harbour Tunnel Company Limited

Opened in 30 April 1997, the Western Harbour Tunnel (WHT) started its mission for alleviating traffic stress at the other two cross-harbour tunnels. Apart from this mission, WHT also has its vital role in the Airport Core Programme as to provide efficient access to the Hong Kong International Airport located in northern Lantau Island.

The WHT project was franchised to the Western Harbour Tunnel Company Limited in 1993 by the Hong Kong Government under a BOT (Build, Operate and Transfer) contract. The franchise covers the financing, design, construction, commissioning and operation of the WHT for a period of 30 years, i.e. up to August 2023.

### MTR Corporation Limited

Starting from 1979, the MTR railway has become one of the most important modes of transport in Hong Kong. After the opening of the Disneyland Resort Line and the extension of the Airport Express to AsiaWorld-Expo in 2005, the MTR Corporation Limited (MTRC) is now operating a railway network of 91 kilometers routes with 53 stations and has a daily patronage of over 2.4 million passengers.
